

MARION TELLS OF

PLOT OF PAGEANT

Only the selection from the mass of material was difficult in preparing the pageant for the coming Serra Festival, according to George Marion, veteran actor and producer, who addressed a meeting of the business men at Pine Inn Monday evening.

Mr. Marion had attended the San Juan pageant Sunday and seeing the large crowd who gathered there made him realize that with Carmel's advantages, the festival here in August should draw thousands upon thousands of guests—people from all over the state who are interested in California and its history.

He pointed out that Father Serra landed in San Diego, looking for the lost Bay of Monterey, and that on his second stop, he landed here and set up his mission from which has sprung the civilization and development of the state.

"Carmel stands out," Mr. Marion said, "by having the privilege of being the domicile of one so great as Father Serra. Every professional man here has agreed to give his services for this great event and the commercial men and women should join in lending every energy to yield honor to our community, to ourselves and to California."

Of the professional actors residing here, Mr. Marion gave the names of Helen Ware, Frank Sheridan and Frederick Burt.

Eugene Watson, president of the association, said "From Carmel mission has grown the Carmel we all love. If there is anything we can do to further the pageant, we should do it."

Tom Thienes, head of publicity, told of the things that had been done so far to send the news abroad that Carmel will celebrate the 150th anniversary of the death of Father Serra this fall. He paid tribute to George Marston, who is preparing "The Apostle of California," in glowing terms. "Mr. Marion has written something which promises to be vastly superior to all other mission plays," he said. "It is going to be a classic."

Carmel Mission is the "Plymouth Rock" of the Pacific Coast, according to Mr. Thienes, who said, "Plymouth Rock is covered by a \$750,000 canopy. Ours, too, must be preserved from the elements." He said the workers were spending a great deal of time and energy with no reward promised other than the satisfaction of making the festival a success.

Mr. Marion was called upon to tell the assemblage about the pageant as he has written it. Among other interesting things he gave the following facts:

The pageant cast will comprise 125 people. The first episode will show an Indian village with the Indians making prayers to their gods for deliverance from a drought. Next shows the coming of the Franciscans who plant the cross; the aggressive resistance of the Indians to their coming; the coming of Father Serra and his followers who satisfy the Indians of their sincerity. Second episode shows the construction of the cornerstone of the Mission of Carmel, when Indians and Mexicans began the building. In the midst, the Angelus rings and action stops. Third episode shows the arrival of Ansa from across the desert of Sonora and the festival held in his honor with dancing by the Spaniards, Indians, children and soldiers. Then comes the dance of the Indians by colored lights, followed by the angelus, when Serra, Ansa and the monks go into the mission. The last episode shows the Indians going about their various occupations pre-

FOREST THEATRE TO

OPEN WITH COMEDY

Producing a riotous comedy for the first time, The Forest Theatre will open the summer season Wednesday, July 4, with "Going Some" by Rex Beach.

The story is laid on a New Mexico ranch, and is a comedy of cowboys and collegians, comprising a cast of fifty. The play will continue through the 5th, 6th and 7th.

Donald W. Lee of Hollywood will direct the production. Mrs. Grace Rayburn and Miss California Andrews will have charge of the cowboy chorus, the majority of whom come from Carmel Valley.

The cast, besides the singing cowboys, includes Phillip Walker, Charlotte Lawrence, Opal Jefferson, Evert Sholund, Bill Stanford, Dave Cook, Rosamond Marble, Abbie Lou Bosworth, Dr. David Matske, John Nye, A. C. Laffenz, Frank Andrews, Tom Matthews, William Sheppard, Carl Von Saltza and Milton Latham.

Guy Koepf will design and execute the sets.

According to those who should know this play promises to be one of the best crowd-drawing events ever staged at the beautiful Forest Theatre, thus making a fitting celebration of the twenty-fifth anniversary of that organization.

FOREST THEATRE PARTY

SET FOR NEXT SUNDAY

Next Sunday afternoon, July 1, the Forest Theatre will open its doors to the public at a party at the theatre when music will be furnished by the Presidio band and sandwiches and coffee served as refreshments.

Once you find your way to this delightful spot, you will want to go again, and you will have an opportunity to do so when the play "Going Some" is produced.

Due to an error which appeared in last week's Sun, many people visited the grounds last Sunday, and the editors are very sorry for the statement. You will not be disappointed next Sunday, however, and should make it a point to give yourself this treat.

OLD CABIN INN WILL

MOVE AUGUST FIRST

Mrs. Guzie Myers of the Old Cabin Inn informed a Sun reporter that she would move August first from her present location to her new one now being constructed at Ocean and Monte Verde.

Mrs. Myers has not been handicapped by her present location since the crowds have made a "path to her door" but she will have everything more convenient and up-to-date and waiting on her customers will be made easier.

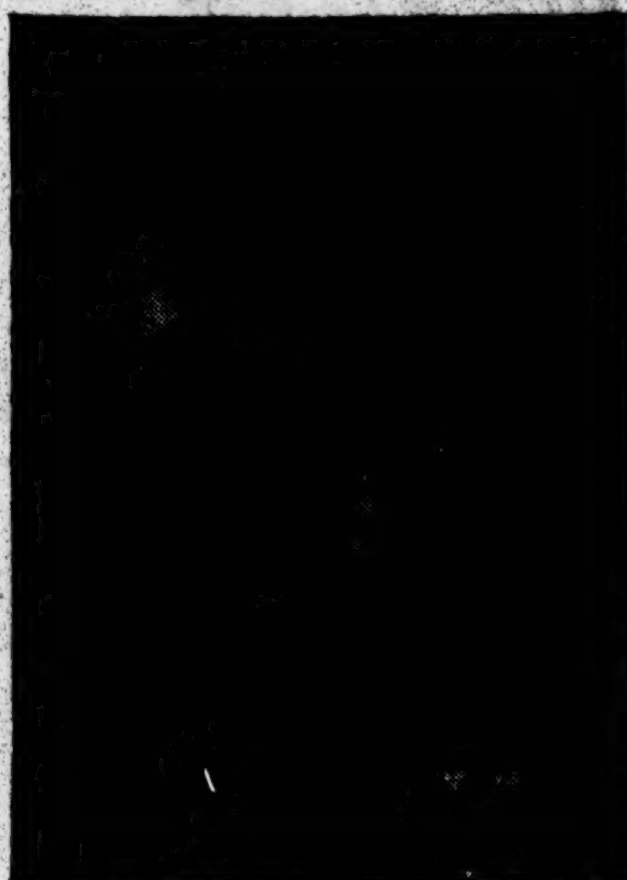

Mr. and Mrs. J. T. Wachter and children of Trona, in the Mojave, are in Carmel for their vacation.

Dorothy Hill, foremost woman golfer of the United States, is stopping at the Del Monte.

taught by Father Serra; then the death of Father Serra after he had gone to the mission for sacrament, and the loving, praying natives. As the bell tolls his death, the words, "The Will of God is Done" are heard.

From the hills come lights and silhouettes in the shadows is Father Serra kneeling. Then darkness.

The program will be repeated each of the five evenings. There will be other entertainment prepared for the daylight hours.

PENHA PIANO QUARTET

TO PLAY JULY 10

It is almost a year since the Penha Quartet has been heard in concert in Carmel. At last the opportunity to hear again this well-beloved ensemble will be given when the Carmel Music Society presents them in the first of three chamber concerts on Tuesday week, July 10, in the Sunset School auditorium. The concert will be the second in the Music Society Summer series of five events.

Since playing here last summer the Penha Quartet has given an excellent concert at Mills College in San Francisco, San Jose, Palo Alto, etc., with brilliant success. Theodore Norman, the new violinist of the group, is fast playing his way into the hearts of the Carmel audience, or that part of it which has heard him in the open quartet rehearsals.

The Penha Piano Quartet consists of Messrs. Linsley, Norman, Weiss and Penha, are "Carmel's own," through their summer residence, and their distinguished place in the music programs of the season.

A MUSICAL TREAT COMING

Ever since Calisto Rogers sang the second soprano part in the Carmel Music Society's production of the "Stabat Mater," there have been requests for an opportunity to hear her in recital. The Denny-Watrous Gallery is delighted to announce that it has arranged for a song series by Miss Rogers featuring little known songs selected from the middle ages to the present day. There will be three programs, and a musical treat is promised in the realm of song which Carmel has not before had the opportunity to hear. The dates of this series will be July 13, July 27 and August 10. These are alternating Friday evenings.

RUSSELL SCOTT CHOSEN

CENTRAL COMMITTEE

Russell Scott, city attorney of Salinas, has secured the unanimous endorsement of the Salinas Democratic club as the democratic candidate for representative of the eighth congressional district.

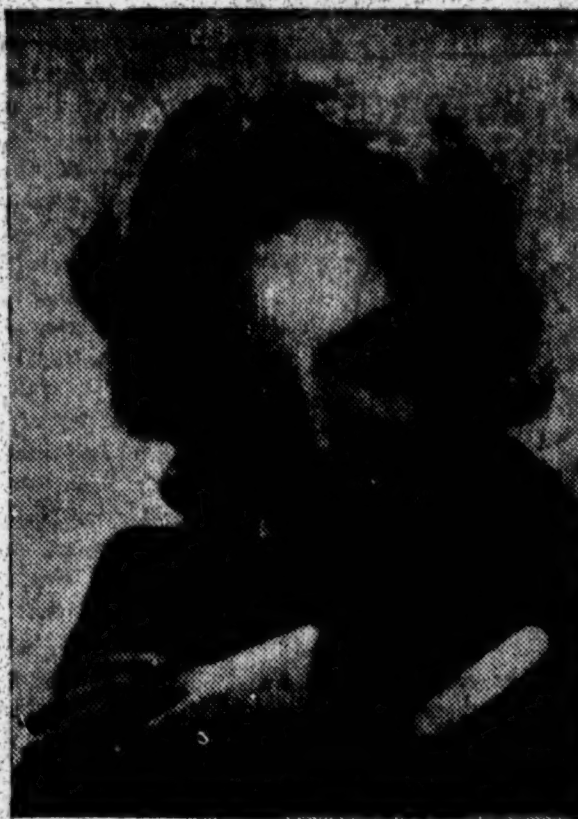

In supporting Scott, who will oppose Congressman J. J. McGrath, Mountain View, in the primary elections on August 28, the club announced that the candidate has "the ability, personality and integrity to qualify for the office."

Mayor Thornburn made a business trip to San Jose Tuesday.

DOCK STRIKE TO BE

DISCUSSED SUNDAY

Next Sunday night at 8 p. m. a striking longshoreman and seaman from San Francisco will speak on the causes and conduct of the Pacific Coast longshoremen's strike. For seven weeks this strike has tied up the coast ports of the West and since contradictory stories have appeared in the metropolitan press it is difficult for the layman to understand the exact details of the struggle.

This is why the John Reed club of Carmel has invited down Lloyd Stroud and John Wheeler, who will tell the story of the strike in their simple language. There will be an open forum of questions and discussion after the meeting, which will be held in the Green Room of the Community Playhouse on Ninth and Casanova at 8 p. m. Admission 25 cents.

DISTURBING PEACE;

GETS JAIL SENTENCE

Charged with disturbing the peace and making threats against an officer, Joe Perry was brought before Judge Wood Wednesday evening at 7:30.

Earl Wermuth, officer in charge of the beach, testified that when he made a request of Perry, who was riding there, Perry turned his horse suddenly, barely missing a girl, and that he threatened to rope him with a hackamore.

Perry was given a suspended sentence of thirty days in jail, dependent upon good behavior.

CHRISTIAN SCIENTISTS

TO GIVE FREE LECTURE

"Christian Science, Its Assurance to a Troubled World," will be the subject of a lecture to be given by Peter V. Ross, C. S. B., at Sunset auditorium July 8, at 8 p. m.

Admission will be free and everyone is cordially invited to hear this lecture.

YELLOW BOWL MOVES

NEAR GOLDEN BOUGH

Miss Florence Terry is moving her Yellow Bowl studio from the building next door to Curtis' Candy store on Ocean to the building directly in front of the Golden Bough Theatre.

Miss Terry will have her summer showing of pottery flowers ready for exhibition July 4 in her new location and a trip to her little shop will be well worth while.

Mrs. Shipley is recovering from a sprained ankle which she received while crossing the street.

Miss California Andrews spent Monday in San Francisco, returning home Tuesday.

BARBECUE SCHEDULED

AS FESTIVAL BENEFIT

To raise money to proceed with the preliminary expense of putting on the Serra Pageant and Festival in Carmel August 24 and continuing five days, a barbecue with boxing and other events will be given at Indian Village Sunday, July 8, at 1 p. m.

Everyone is urged to attend and take the family. The admission price is \$1.00, which pays for Food, Fight and Fun!

Bob Dalton, Carmel's own featherweight, aged 16, weight 122, will meet Mike Walker, weight 122, of Watsonville, who is listed as a "rough, tough, two-fisted fighter."

Frank Dalton, another of the "Fighting Daltons," weight 145, will meet Red Fisher of Pacific Grove, weight 150. This promises to be a real slugging match. Jack Everett of the Presidio, weight 150, will fight Tom Rubio of Salinas, weight 150, and Jimmie Phillips, Presidio, weight 128, will meet Bud Garcia, Salinas, weight 128.

Tickets will be on sale at Stanford's in Carmel; Palace Drug Store, Monterey, and Fortier's Drug Store in Pacific Grove.

Help yourself to a good feed and a lot of fun and help the festival on to success. Sunday, July 8.

QUILTS TO BE SHOWN

AS CHURCH BENEFIT

We all treasure our family heirlooms especially those fashioned by hands long ago. That of beautiful needlework being of especial interest to women of all ages. Carmel is to have an unique opportunity of seeing exquisitely wrought quilts, some of them over 100 years old, others of recent stitchery, but all of beautiful design and workmanship.

These quilts are in the possession of Mrs. Darling, and she has consented to exhibit them to the public on the afternoon of July 3rd, at her beautiful home on Carmelo street between 9th and 10th streets, between the hours of 3:30 and 6:00. Admission to view quilts and partake of tea is 50 cents, the proceeds to aid All Saints Church, of which Mr. and Mrs. Darling are devoted members.

John Jordan is wearing a more cheerful face since the erroneous statement that he will be a member of the Democratic central committee has been corrected by the Monterey Herald. Mr. Jordan is one of the few Republicans extant and expects to remain with his party.

LOCAL POETS ASKED

TO SUBMIT WORK

A note in a trade paper received at Carmel Sun office says:

"Please ask your local amateur poets to submit any original verse of 32 lines or less to us for publication in new national magazine. Cash prizes. Wide publicity.—The Ode, Rye, N. Y."

The editors of the Sun know nothing further than that which appears in the advertisement.

MISS HELEN BENNETT TO

WED RAYMOND WASSON

The engagement of Helen Bennett, and Raymond Wasson both of Carmel, was revealed at a surprise birthday party given last Thursday evening in honor of Mr. Wasson's brothers, Ted and Henry Wasson, of Monterey, at the home of the bride-to-be on Casanova street.

Among the guests were: Mr. and Mrs. Ted Wasson, Henry Wasson, Mr. and Mrs. Gordon Watkins, Clyde Prior and Everett Wallace, all of Monterey; Miss Mary Darby of Amarillo, Texas, Miss Catherine Kedler, Leola Hansen, Bud Redfern Henry Chaisser, Eleanor Butts, Juanita Smith, Byron Dennis and Bryan Balch and Mrs. Jane Butts and Harry Butts, mother and brother of the bride elect.

A brother, Orval Kenneth Butts, who recently enlisted in the navy and is a candidate for the United States Naval academy, could not be present.

The wedding date has not been set. Mr. Wasson is a valued employee of the Peninsula Typewriter Exchange of Monterey.

This will be the third engagement to be announced from that office recently.

AUDIENCE IS THRILLED

WITH DOUBLE KEYBOARD

Carrying her audience with her, leading them on to forget all but the wonderful music she produced from the Moor Double Keyboard piano, Winnifred Christie opened the summer season of the Carmel Music Society in a concert here Tuesday night.

The huge Sunset auditorium was comfortably filled with the appreciative audience, many of whom had heard Miss Christie when she appeared at the Denny-Watrous Gallery last fall.

Miss Christie brings out the wonderful tones of this new invention by her excellent musicianship and received encore after encore.

LITTLE PATRICIA MASTEN

IS CALLED BY DEATH

The many friends of Mr. and Mrs. Richard Masten are sympathizing with them in the loss of their little daughter, Patricia, who passed away at a Monterey hospital Monday.

The little one was a general favorite with all who knew her and her cheery presence will be missed by many.

SUN ANNOUNCED CORNETT

TREASURER CANDIDATE

J. A. Cornett is running for the office of coroner regardless of the statement in his card that he was a candidate for treasurer. J. E. Steinbeck is the candidate for treasurer and Mr. Cornett, incumbent in the coroner's office, is seeking re-election. While apologizing, it is a good place to say that Sheriff Carl Abbott presents his candidacy August 28 along with the other candidates, and not on the 8th as announced in the Sun one week.

SAVE

10% SUMMER DISCOUNT
ON GAS HEATING EQUIPMENT

INSTALL NOW
NO MONTHLY PAYMENTS
UNTIL AFTER OCT. 1st

LET'S SEE what this Summer Discount Sale of gas heating equipment means. First of all, you save money—a full 10% of total cost of equipment and the installation. Then you get immediate installation although monthly payments on the equipment and its installation do not begin until October 1.

But you should consider these things, too. You are helping keep men at work—the skilled mechanics of the gas heating trade. You gain through doing this by getting a more workmanlike installation than always possible during the winter heating season rush.

And surely there is great satisfaction in knowing your home is ready for winter with heating equipment that runs itself and burning a fuel that ends all worry and work.

The following examples show how you save by having gas heating installed now:

... FOR EXAMPLE ...

On a Central Warm Air Furnace You Save from \$20 to \$30
On a Steam Heating System . . . You Save from \$30 to \$50
On a Floor Furnace You Save from \$9 to \$15
On a Radiantfire You Save from \$2 to \$8
On a Circulating Heater You Save from \$3.50 to \$7
On a Gas Steam Radiator You Save from \$3 to \$5

Special Summer Discount and terms are in effect for a limited time only. Settle your home heating problem at this time and save money.

GREATEST TIRE MILE-
AGE OF ALL TIME

A new speed record of 104.865 miles per hour . . . a new endurance record for racing cars . . . a new economy record of 13.38 miles per gallon of gasoline . . . and a new strength, safety and dependability record for tires . . . all these were established in the 1934 Indianapolis 500-mile Speed Classic when 33 of the world's greatest speed demons roared over the rough brick track, as blistering hot under a sun that kept the temperature at 90 degrees all during the race.

Each of these new records means a great deal to the future plans of the automotive industry and will result in improvements and developments in cars, automobile parts, gas, oil and tires.

When translated into terms of benefit to car owners, probably the greatest of these was the record of performance made by Firestone High Speed Tires. In this most gruelling test of tire safety and stamina, not one tire failed only one tire change was necessary, and that was caused by a cut in the tread from a broken bottle on the track. Eight tires were changed as precautionary measures. This new record was made in spite of the fact that new speed records were set, that the drivers slid into the turns with terrific force, and that the race was run on one of the hottest days of all time at Indianapolis. The experience and knowledge that Firestone engineers gain from building these tires for the 500 mile race enable them to incorporate new principles into the manufacture of Firestone passenger car tires. These developments coupled with the extra rubber added to the tread mean that a motorist will get increased mileage far beyond expectations in the new Firestone tire for 1934.

This statement was made today by A. C. Grimshaw, local Firestone dealer, who has just received a large shipment of all sizes of this new tire. Grimshaw declared that every one of the 33 starting drivers in the Indianapolis 500 mile race bought Firestone tires for his car. This in itself was an amazing tribute to the past performance of Firestone tires, but these people well knew that Firestone tires have been on the winning car in each Indianapolis race for 15 consecutive years. They realize that the time taken to make just one tire change during the fast gruelling test over the 500 mile course might mean the difference between 1st and 2nd place. They know that a blowout might mean death. So every last one of them purchased Firestones for their mounts.

"This record of accomplishment would mean little to car owners generally," Grimshaw said, "but the Firestone engineers who build the tires that streak over the blistering hot brick track at Indianapolis, incorporate the same principles of tire construction into the Firestone line of passenger car tires that they learn from their experiments and tests to build extra strength, safety and dependability into the tires for the race cars."

The Firestone Tire and Rubber company has announced that they learn the formulas for longer wearing, tougher tires long before they are needed to take care of the added strain and greater speeds of the new model cars announced by car manufacturers each year. They learn these formulas from their experience each year at the Indianapolis races and are therefore placed in the position of having a tire ready each year that has proven "it can take it" at even higher speeds than the stock car models can travel.

Mrs. Martin Casey of Palo Alto and little daughter, Colleen, are guests of Mr. and Mrs. O. W. Bardarson. Mrs. Casey and Mrs. Bardarson were girlhood friends.

O. W. Bardarson, principal of Sunset School, is spending this week at Stanford.

JOHN C. CORBETT
SEEKS RE-ELECTION

John C. Corbett yesterday announced his candidacy for re-election as a member of the State Board of Equalization from the First District.

Corbett has served on the Board of Equalization for a number of years, and according to his sponsors, his record has been one of distinction and efficiency. In fact, say his supporters, he has served the people so well and faithfully that he has had practically no opposition when coming up for re-election every four years following his first election.

Corbett is one of the best fitted men in the State for service on a Board that deals with tax problems, his friends point out. Prior to his original election to the Board of Equalization, Corbett served for years as Chief Appraiser of the Personal Property Department in the San Francisco Assessor's office and here his work attracted favorable attention from all over the state and it was rewarded with his election to the important office he now occupies.

Corbett fights strenuously to relieve the people of tax burdens as far as possible. He and other members of the Board have accomplished much toward equalizing the taxes, with the result that Californians are today carrying a lighter and more equitable tax burden than the people of any other state. It is on his record that Corbett presents himself to the voters once more for re-election.

J. A. Burge returned home Saturday from a ten-day visit into the northern part of the state where he went to secure native rhododendron and azalea plants for his greenhouse. Mr. Burge said he found things in that section looking a great deal better, with lumber camps running at full force where they had been using crews of five or six men.

James Vernon Short and family of Berkeley are spending some time in their cottage here.

REFRIGERATOR SALES

ARE NEARLY DOUBLE

Sales of electric refrigerators in the northern and central California territory of the Pacific Gas and Electric company during the first four months of 1934 were nearly double those recorded for the same period of last year, according to a survey just completed.

Improved market conditions, a growing demand from housewives for electric refrigeration and marked increase of purchasing power in the rural and farm districts are reflected in the figures as compiled.

During the period from January 1 to May 1 of this year, sales of refrigerators in the company's territory amounted to a total of 7479, an increase of 84.5 per cent over

the 4053 sales recorded during the first four months of 1933.

Analysis of sales by districts reveals that while demand increased 67 per cent over last year in the San Francisco and East Bay districts which are almost wholly urban in character, the sales reported from the other ten districts which are largely rural and farm territory, increased exactly 100 per cent.

Purchasers outside of San Francisco and the East Bay district bought 4380 refrigerators in the first four months of this year while only 3099 were sold in the two metropolitan areas. In 1933 the ten country districts bought 51.4 per cent of all the refrigerators sold in the territory; in 1934 a total of 53 per cent; and up to May, 1934, a total of 58.6 per cent. In April of this year 61.5 per cent of all sales were

to purchasers in the rural districts.

RURAL SUPERVISION FUND

ALL COMES FROM STATE

The elementary school supervision fund is provided under the provisions of School Code, section 4,788, according to Superintendent James G. Force, and the money in the fund all comes from the state of California.

Not one cent of common property tax is levied for the rural supervision fund.

Mandatory state law requires that the county superintendent of schools in every county shall use the rural supervision fund for paying the salaries of rural school supervisors. If the fund is not so used it reverts to the state.

JOHN R. QUINN FAVORS

GAME LEGISLATION

San Francisco — California's 300,000 sportsmen have been given definite assurance by John R. Quinn, Progressive Republican Candidate for Governor, that their comprehensive program for a complete reorganization of the state fish and game division and legislation for better preservation of wild life has his sympathetic and unqualified support.

In a telegram to Frank E. Johns, director of the San Joaquin Valley Sportsmen's Council and former president of the Tuolumne county Sportsmen's Association, Quinn places himself squarely on record with a pledge that "sportsmen who maintain this department will have greater authority to reflect their desires in the operation of the department." He further insists that more effective steps be taken by the state for the replenishment of game birds and game fish in California's forests and streams.

Referring to Quinn's support of the sportsmen's program Johns said:

"It gives great encouragement to our efforts to have this outstanding public figure recognize our needs and commit himself to the furtherance of our plans. Throughout his life, John Quinn has had experience and knowledge of the value of a proper predatory animal control in the hills and valleys of our state, and knows that predators must be kept down to preserve our upland birds and deer."

"As chairman of the board of supervisors of Los Angeles county he has had first hand contact with the problems of maintaining proper conditions for sportsmen in safeguarding the supply of tuna and other sport fishing off Catalina Island. He knows the striped bass situation in San Francisco bay and the river regions of the north central part of the state. He knows the steelhead and salmon story of our northern rivers and the splendid fight waged by sportsmen which closed the Klamath river to commercial fishing. He knows the problems of the black bass fishermen of central California. In fact, he is familiar with the troubles of sportsmen throughout California and is sincerely anxious to work with them and for them to maintain California as the sportsmen's paradise."

BOY SCOUT CAMP

HAS SECOND INVASION

The first week of the new Boy Scout camp at Pfeiffer's Redwood state park, Big Sur, ended Sunday, and the second contingent of troops from the five districts of the local area council arrived to occupy Camp Wing for the next week or two. The camp will be in session for a period of four weeks, until July 15.

According to reports from Camp Wing in the form of letters from scouts their stay has been all too short, and many are registering for a second week. Scout leaders are enthusiastic about the new camp, and indications point to a camp so successful as to be beyond the highest expectations of local scout officials.

Members of the local executive board, after a visit and inspection of the camp last week pronounced conditions Army and state officers accompanied the inspecting party, and were favorably impressed. Health and sanitation conditions are exceptionally good, and morale is high.

Under the direction of Waterfront Director Warren Tormay, a Red Cross life saver, more than 50 scouts passed their swimming tests the first week. Nature study work, headed by M. E. Titus, is proving of great interest to the scouts, and general scoutcraft activities, supervised by Stanley Smith, are progressing favorably. Other scout activities, such as hiking, campfire programs, first aid, merit badge work, and test passing round out

Your Sunday Morning Breakfast

Should be a leisurely affair. Drop into our food shop next door to El Fumidor Sunday morning and enjoy a delicious home-cooked meal.

THAT ASSESSMENT LIST
About this time of year Carmel's City clerk mails out an assessment list to those who are so fortunate—or is it unfortunate—to be possessed—or is it encumbered with some property that tax can be levied upon.
It is double columned. One side, it is headed, Real Estate and Improvements, the recipient is supposed to give the number of the lot, the block, the addition and value of the Realty and Improvements, that is the value the owner would be satisfied with if the assessor would agree with his figures.
On the opposite side it is headed personal property. There is listed everything the law-makers, up to the present time could think of that a tax could be placed on.
A Village Wag filled out the list according to his possessions and returned it to the city clerk who gave it a stony look. Here it is:
Bonds: only matrimony.
Notes: Only from creditors.
Cash on hand: Thirty cents.
Watches: An old time Ingersoll.
Jewelry and Plate: The wife's ring and some plated table ware.
Furniture: Slumber, resting and dining articles.
Musical Instruments: A canary bird.
Sewing Machines: A forty-year old Singer slightly out of repair.
Libraries: Dictionary, Telephone Directory and some Sat-eveposts.
Goods, Wares or Mdse: Some old clothes, kitchen utensils, also a stove poker and a lid lifter.
Consigned Goods: A promised second hand suit of clothes.
Fixtures: A wife.
Machinery: A patented can-opener and a clothes wringer.
Wagons and other Vehicles: A wheelbarrow.
Automobiles: No such luck, too expensive besides I can't drive; bum my rides.
Harness: Two pairs suspenders.
Horses: A carpenter's.
Cows: Some empty milk bottles, should be returned.
Typewriters: Two old style fountain pens.
Bicycles: Never could ride one.
Any other personal property not mentioned above? Not that I can think of or find.
Total: Thirty cents.
—R.H.D.

Mr. and Mrs. P. E. Holt of Stockton are in Pebble Beach for a stay. Mr. Holt is with the Holt Harvester company.

Miss Marian Adams will return home in about ten days after spending a month at her old home in Minnesota. She is manager of the Corner Cupboard.

Termites Are Builders

Queen Big Egg Producer

The African termite builds a conical hill 10 feet high with a circumference of anything up to 30 feet, but these are dwarfed by some Australian species, which build mounds 24 feet high. Each of these mounds, writes a correspondent in The Bits Magazine, is constructed by the worker termites and built of minute particles of matter. The majority are oblong in shape, with the small ends invariably pointing north and south. The material consists of earth and wood, but before being used it is eaten by the workers. This gives them nourishment and a uniform building substance.

Somewhere in a well-guarded place in the heart of the termite home we find the royal compartment of the queen. She is a remarkable creature, for after mating with the king her body swells to an enormous size, and for the remainder of her life she is an egg machine, attaining a length of 3 inches and laying 60,000 eggs a day. With such a prolific mother the colony increases to such an extent that there may be millions of workers and soldiers, yet all their operations are carried out in darkness, and hundreds of human beings have lived all their lives within a few yards of a colony without seeing a single termite.

If a queen should die, the colony is thrown into confusion, but the workers take some of the eggs and treat them in some mysterious manner to produce queens. So far as we can tell, all eggs laid by the queen are similar, but the workers can produce queens, kings, soldiers or workers.

Difference Between the Scotch, English Collies

Modern dog breeders recognize three main types of collies, of which only two are really collies, says the Montreal Herald. The Old English sheep dog, which has no tail, is a big, rough-coated mastiff type of dog which has not been used to herd sheep for at least a century. The true collie is a medium-sized wolfhound type of dog which in northern England and Scotland has been bred and trained to a high point of intelligence in the herding of cattle and sheep, particularly the latter. On this continent what is known as the Scotch collie has been developed more as a show dog and household pet, has become larger, with a longer face and head, more than in a heavier coat, than their old North British forbears. This type of dog has considerable signally, but is hard as difficult to train as a cattle or sheep dog as the average farmer. But here and there a few of the North British collies or their progeny can be found, and these, though smaller and possibly not so good looking, are to be preferred to the so-called Scotch collie.

Macaulay Loved Books

Lord Macaulay, the famous historian and poet, often wrote long letters to his nephews and nieces, and to one called Margaret he wrote: "I am always glad to make my little girl happy, and nothing pleases me so much as to see that she likes books. For when she is as old as I am, she will find that they are better than all the tarts, and cakes, and toys, and plays, and sights in the world. If anybody would make me the greatest thing that ever lived, with palaces, and gardens, and fine dinners, and wine, and coaches and beautiful clothes, and hundreds of servants, on condition that I would not read books, I would not be king. I would rather be a poor man in a garret with plenty of books than a king who did not love reading."

Church That Owns Slaves

A Christian church is one of the largest owners of slaves in Abyssinia. In other words—in the whole world. This astonishing revelation is made by the Anti-Slavery and Aborigines Protection society, in an article on slavery appearing in the Church Overseas. The church concerned is the Christian Coptic church, the native Christian church of Egypt, which has 450 churches and monasteries, two bishops in Egypt, one in Khartoum, and three in Abyssinia. There are still 5,000,000 men, women and children slaves in China, Abyssinia and Arabia, Liberia, along the Persian gulf and in Morocco.

+100A.1+LMC

All ships which sail the seas carry certificates of identity and, where passengers are carried, British vessels are subject to regulations for safety and fitness. The highest class of excellence in which a vessel can be placed is +100A.1+LMC, which is generally known as "A1 at Lloyd's." The star or cross shows that a special survey was made during the building of the ship, and 100A means that all the rules laid down were obeyed, the figure 1 referring to the efficiency of the anchors and cables. In addition, the letters LMC denote that a special certificate has been issued for the machinery, which with a star in front again refers to a special survey during construction.

FIRESTONE HIGH SPEED TIRES
* For fifteen consecutive years have been on the winning cars in the 500-mile Indianapolis Race.

* For seven consecutive years have been on the winning cars in the 24-hour Pikes Peak climb where a tire counts much.

* For three consecutive years have been on the 101 laps of the Washington (D. C.) Rally and Electric Co. covering 11,812.10 bus miles without one minute's delay due to tire trouble.

* Were on the Nelson Motor Ford V-8 Truck that made a new coast-to-coast record of 67 hours, 55 minutes, 30 seconds actual running time.

THE New Firestone High Speed Tire for 1934 was built to give you the same dependable service it provided for the 33 drivers who started in the tortuous 500-mile grind at Indianapolis May 30.

This new tire has a wider tread of flatter contour, deeper non-skid, more and tougher rubber, giving you more than 50% longer non-skid mileage.

Besides being Safety Protected on the outside it is Safety Protected on the inside. Eight additional pounds of pure rubber are absorbed by every one hundred pounds of cords.

This additional rubber is so placed that it surrounds every cotton fiber inside every cord in every ply. This is accomplished by soaking the cords in liquid rubber by a Firestone patented process.

This patented process, Cum-Dipping, is not used in any other tire built.

Heat caused by internal friction of cotton fibers destroys three-cotton separation and blowouts.

Cum-Dipping counteracts friction and heat—provides greater adhesion and binds the cotton and rubber together into one cohesive unit of greater strength, securing one corner of the greatest Safety, Protection and Economy that it is possible for human ingenuity to build into a tire.

The most amazing proof of this extra strength, safety and dependability is the fact that every one of the 33 drivers at Indianapolis chose and bought Firestone High Speed Tires. Race drivers KNOW tire construction—they will not risk their lives or chance of victory on any other than Firestone.

At terrific speeds the cars plunge into the treacherous turns—then are braced against the scorching hot track—so hot the tires fairly smoke at times—they give—yield and stretch—every conceivable force works to tear the tire to pieces, yet Firestone High Speed Tires "come back" on the straightaways. Not once during the entire race did a tire fail.

Surely this is the most amazing proof ever known of Extra Strength, SAFETY and dependability. Call on the Firestone Service Dealer or Service Store nearest you TODAY. Equip your car with New Firestone High Speed Tires for 1934.

San Carlos and 6th

His friends will join with William P. Silva, Sunday, July 1, in the celebration of the twentieth anniversary of the opening of the Carmelita Gallery on San Antonio.

In keeping with the occasion, Mr. Silva will have on exhibition many of the pictures he painted twenty years ago, some showing old landmarks now swept away in the tide of advance.

To the old-timers Mr. Silva will give a copy of his painting, "The Mission Orchard," made at that time, showing a very beautiful scene, but now practically nonexistent.

Mr. Silva cordially invites all his friends to call at the gallery next Sunday afternoon between the hours of three and six. Refreshments will be served and a pleasant afternoon is scheduled.

LOST—Small package from Merle's Treasure Chest. Reward of its value if returned to Mrs. Eells, San Carlos and Santa Lucia. Postoffice box 1201.

Kenneth and James Moore of San Leandro are here for a two weeks' visit with their grandmother, Mrs. D. E. Nixon.

After an illness of a few days, Mrs. Idena Florence Gillett passed away at her home on San Carlos avenue at 8:45 Monday.

Surviving her are her widower, Robert F. Gillett of Carmel, and four children, Eugene C. Gillett and Thomas R. Gillett, both of Crockett, Calif.; Andrew L. Gillett of Carmel and Mrs. Russell Hudson of Monterey.

A brother, Eugene C. Gillett, retired electrical engineer for the General Electric company, lives in Schenectady, N. Y. Her stepmother, Mrs. Emma Carroll, resides at Stanton, Va.

The Gilletts came to Carmel twenty years ago and have made hosts of friends who will miss the departed and sympathize with her bereaved family.

Funeral services will be held at Freeman's Mortuary in Monterey this (Thursday) afternoon at 8 o'clock and private interment will be made in the Carmelo cemetery in Pacific Grove.

Mrs. Gillett was 66 years of age at the time of her death, and was a native of Virginia. In her younger years she was a member of the choir at the Community church. She was a lovable character and a fine mother.

BLACK WIDOW SPIDER

SEEN AT EL FUMIDOR

Those who have not seen a black widow spider will do well to call at El Fumidor where one is in captivity in a glass jar. Especially those who have children should make it a point to show the specimen to them so they may avoid them while playing out of doors. Once seen, the black widow will never be confused with another.

Dr. Annie Anderson has returned to her home in Los Gatos after spending a month in Carmel.

Anniversaries seem to be a plenty this week, and Turano's Market on Del Monte avenue, next to the Prince of Wales ball room, are joining in with an anniversary sale in which they offer fruits, vegetables, wines, and poultry at exceedingly low prices.

Mr. Turano has been in his present location two years and is constantly adding space to accommodate his growing trade. His place is very popular with Peninsula residents who always feel better from having met with a smiling face and courteous treatment.

Mr. Turano has been a constant advertiser with Carmel Sun beginning with a very early issue more than a year ago.

THREE MERCHANTS TO CELEBRATE BIRTHDAYS

Celebrating their birthday anniversaries, Mikel's Market, Wild's Market and the Oak Grove Pharmacy, are staging a combined big Six-Day sale, to start Friday, June 29, and continue through Wednesday of next week.

In honor of the occasion, the proprietors, Mr. Mikel, Mr. Wild and Mr. Arnone, are offering some unheard-of values for the six days and will no doubt greet all their old friends and make many new ones in that time.

All three merchants carry high class goods and give prompt and courteous service, which makes them favorites in the business world.

Mr. Mikel is celebrating his third anniversary and Mr. Wild and Mr. Arnone are each celebrating their first in the Mikel Building. The Oak Grove Pharmacy is a Rodgers and Dyke store.

Coming as a last minute surprise, Mrs. Sarah E. White, wife of the Rev. Willis G. White, Carmel, has announced her candidacy for the office of county superintendent of schools.

Beloved and respected by Carmel as a whole, Mrs. White will carry Carmel in the coming election. Friends and workers throughout the county are predicting a victory for her at the polls, not on account of shortcomings of the other candidates, but on account of her own high standing and excellent qualifications.

A close friend of Mrs. White has handed to the Sun the following facts about Mrs. White, who is in the race to win, according to her own statement:

Sarah E. White, Native Daughter of the Golden West; graduate Teachers State Normal school, Chico, Calif.; post-graduate work Stanford University; special work under Prof. Henry Morse Stevens, U. C.; Dr. Young, University of Wisconsin; Dr. Brook, Yale University and Woodrow Wilson's brother-in-law, Dr. Akson, one of the best English teachers in the United States.

Traveled throughout the United States and Europe.

Because of her love and sympathetic understanding of children, and unusual ability as a teacher, she was called by the state superintendent of public instruction from a school in Butte county to a more difficult school in Ojai, Ventura county, where she taught five years and was highly recommended by Sherman D. Thacher, headmaster of the Casa de Piedra school, Ojai.

As principal of Sunset school, Carmel, four years, she won the love and respect of all for her untiring devotion to her school work, and to the best interests of the community.

She is, and has been for two years, a member of the Executive Board of the Carmel Women's club and chairman of the Current History section.

She is, and has been the past year, a member of the Executive Board of the Monterey Peninsula League of Women Voters, and chairman of the section—"Legal Status of Women."

For two years she has been president of the Federated Missionary societies of the Monterey Peninsula.

She believes that education should meet the needs of every child; and that every individual should have opportunity for the highest development physically, intellectually and morally to enable each to take his place in the world's work honestly, efficiently, effectively for the welfare of the masses.

POLICE COURT BUSY WITH LAW VIOLATORS

Walter Collins, whose car collided with that driven by W. S. Weeks last week, was given a fine of \$10 when he appeared before Judge Wood.

Dorothy B. Fauntleroy, who appeared on the 19th for speeding, was given a suspended fine of \$10.

Low Jones was tagged the 23rd for driving without due caution and was fined \$5.

Robert G. Beaumont of Del Monte was arrested the 23rd for traveling 37 miles an hour in a 25-mile zone and was fined \$10.

John Scardia of Monterey was arrested the 25th for traveling 36 miles an hour in a 25-mile zone and will come up for hearing Friday morning.

William Henderson, who was tagged for driving without due caution when his car collided with another at Dolores and Twelfth the 26th, will appear before Judge Wood June 30th.

Miss Mildred Pearson, who recently returned to Santa Barbara after a visit with her mother, Mrs. D. E. Nixon, will enter the state college in that city for a course in art. Miss Pearson has shown a great deal of talent in designing and copying and her friends will be glad to hear of her splendid opportunity for advancement.

"COUNSELLOR-AT-LAW"

Friday and Saturday next week, July 6th and 7th, the Golden Bough Players, under Edward Kuster's direction, will perform Elmer Rice's famous comedy-drama of contemporary New York life, "Counsellor-at-Law," at Carmel Community Playhouse.

The cast of principals, to which must be added many supernumeraries, will be: Bonnie Green; Barbara Collins; Henry Suskind; Markham Johnston.

Sarah Becker, Sonia Gunderson Postman, Ross Klester Zedora Chapman, Georgia Waple.

Goldie Rindskopf, Mildred Baer Charles McFadden, Frank Heffling John T. Tedesco, William Lingley Regina Gordon, Mary Jane Lough Herbert Howard Weinberg, Disbrow Johnson.

Arthur Sandler, Dale Leidig Lillian Larue, Jane Hewlett Roy Darwin, Frank Work.

George Simon, Edward Kuster Cora Simon, Betty Meyers Lena Simon, Dorothy Ledyard David Simon, Ralph James.

Peter J. Malone, Frank Heffling Johann Breitstein, Arthur Armbr.

by Harry Becker, Charles Kilian Richard Dwight, Jr., Lee Van Atta.

Dorothy Dwight, Helen Marie Newmark.

Francis Clark Baird, Dewey Clough.

Messenger, Carl Breunfleck.

The players represent all types of people who are found in the offices of successful metropolitan lawyers. The role of the telephone girl, played by Barbara Collins, of Fresno, is almost a star part in its own right. Georgia Waple, of Hollister, leading woman in Kuster's production of "The Mother of Gregory," with which the Golden Bough group won first prize in the Northern California drama tournament recently held in San Francisco, plays a small "type" role with humor and finish. Dawdling office boys, hurrying messengers and process-servers, secretaries and stenographers, clients and visitors of all sorts, the whole headed by the two members of the firm of "Simon and Tedesco," present a cross-section of a whirlwind phase of the life of our times.

The comedy element uppermost, there are nevertheless moments of tense drama. The play ends with a near-catastrophe relieved by a thrilling nick-o-time rescue as could be found in any of the old-time melodramas, save that in this instance the situation is natural and probable and accurately true to the life of today.

The dialogue is rich and witty, the tempo fast and the scene-changes almost as rapid as those of "Beggar on Horseback," which three years ago astonished Playhouse patrons. William Gaskin, who designed and executed the "Amaco" scenes last year, is again responsible for the settings.

Tickets are available on and after this Saturday, opposite Carmel postoffice.

AMENDMENT TO ORDINANCE DISCUSSED AT MEETING

Although every effort is being put forth by the Business Men's association to protect those merchants who have been in business here less than one year prior to April 1st, no agreement has as yet been reached.

Three members of the council, so the Sun has been informed, will allow of no amendment to the ordinance recently adopted which calls for a deposit of the highest bracket, \$100, from all merchants who cannot show an average monthly business for the past 12 months. They claim that a time will never come when the stipulations may be carried out without affecting some who will object strenuously and give, as their opinion that all who are now in business will be able to put up the deposit.

MEMBERSHIP DRIVE FOR VOTE ON BONDS WAS

CARMEL LEGION NOW ON

LIGHT; ISSUE DEFEATED

Led by Captain Hudgins, a membership drive for the Carmel Post of the American Legion is being started Friday morning when every available man will be canvassed.

The next meeting of the Carmel Legionnaires will be a dinner meeting held at the Manzanita club July 16 and all veterans of the World War are urged to attend.

Colonel Kenney of Pebble Beach has presented his application to the new Post. He was the founder of the American Legion and is at present a member of Post No. 1 in Paris. The Carmel Post is indebted to Colonel Kenney for a gift of \$500 to help in preliminary work of organization.

EXPRESS APPRECIATION

Carmel, Calif., June 21, 1934.
Carmel Sun, Carmel, Calif.

Dear Editor:

The Monterey Peninsula League of Women Voters wish me to express to you their great appreciation of the publicity you have so generously given them, feeling as they do, that any measure of success they may have achieved, has been made possible through the generous co-operation of the press.

Again thanking you, I am,

Respectfully yours,

Helen W. Adams (Mrs. J. B.),
Corresponding Sec'y.

Box 82, Carmel, Calif.
NOTE: Carmel Sun has been glad to co-operate. The Editor.

Mr. and Mrs. John F. Sheehy of San Francisco have returned to their home after two months spent in Carmel at Low Tide.

Although only 194 of Carmel's 1200 voters appeared at the polls Tuesday to decide on the issuing of bonds in the amount of \$20,000 to alter the school building in compliance with new earthquake regulations, the question was defeated overwhelmingly, 164 voting against and only 30 for.

From the first it was known that the bonds had no chance of passing, but without the election the school board could have been held liable in case of injury to the pupils from earthquakes. The question has now been decided by the parents themselves. This is the third bond issue defeated by Carmel voters this year, previous ones being the proposal for sewer bonds of \$86,000, and city hall bonds of \$30,000.

STREETS BEING OILED

AND PUT INTO SHAPE

Good work is being done by the street commissioner, J. A. Burge, in the oiling of the streets. Junipers from Sixth to the Ocean and Dolores to the gulch are receiving attention this week and following that each street between Dolores and Ocean will be oiled.

Frank O'Brien and wife were guests for a week of Mr. and Mrs. W. R. Mawson of Robles Del Rio. They returned to their home in San Francisco Tuesday.

Adam Darling will leave next Monday for a short stay in Denver. He and Mrs. Darling have been enjoying a visit from Denver friends.
